

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0020] and substitute the following therefore:

[0020] The first gas tube 56 has a connector 64 for coupling gas from the gas hose 18 to the first gas tube 56. Similarly, the first liquid supply tube 58 has a connector 66 for coupling liquid from the liquid supply tube 58 to the liquid supply line 22. In addition, the first liquid return tube 60 has a power fitting 68 for coupling power from the power cable 26 to the first liquid return tube 60 and liquid from the first liquid return tube 60 to the power cable 26. In the illustrated embodiment, the connectors 64, 66 and power fitting 68 are secured to the tubes by brazing.
